

Christmas Time

Christmas time

It has a way of making smiles

It has a way of touching lives

Like yours and mine

The world is fine

At Christmas time

Christmas time

It has a way of bringing joy

To each and every girl and boy

For just one day

We find a way

At Christmas time

And in the light of the fire

In the green of the tree

Christmas has a way

Of helping us all to see

That it's more than the mistletoe

Or the gifts we're dreaming of

Christmas is a time of love

Christmas time

It has a way of sending cheer

To friends and family

Far and near

We wish the best

For health and happiness

At Christmas time

Christmas time

It has a way of shining bright

A holy star on a silent night

For all to see

We still believe

At Christmas time
